

Expression of Interest WESI BPM Software

Issue Date: January 21st, 2016

Closing Date: Feb 7th, 2016

Description

Waterford Energy Services Inc. (WESI) is seeking interest from software developers for the development of business process management (BPM) software applied to the oil and gas industry.

Scope of Work

The software should facilitate various subjects or modules. These modules are interrelated and so there should be the ability to share data between the modules. Each module has unique requirements and will be developed individually.

Some of the required features of the BPM software include:

- Information must be able to be accessed and modified on handheld devices such as smart phones and tablets for use in the field.
- Generate reports with contained data.
- Permit addition of photos and reports remotely from field locations.
- Store relevant information including process, procedures, reports and regulations.
- Generate alerts and notifications via text and email.
- Allow cloud or server storage and access by clients.
- Monitoring progress and generating reports.
- Have a knowledge base to present previous project knowledge.
- Built in progress monitor.
- Automatically generate a lessons learned database.
- Forum space for discussion.

Project Schedule

It is envisioned a demo of the software should be ready by the spring of 2016.

Submission Requirements

Bidders are to provide the following:

- Background information on their company as well as a single point of contact.
- Certificate of Incorporation, Office Location, Key Personnel and Org Chart.
- CVs of Key Personnel.
- Previous experience in BPM software development.

Deadline

Responses to this EOI should be received no later than February 5, 2016 at 3PM AST.

Please note that this Expression of Interest may or may not result in the issuance of a Request for Proposal. If WESI proceeds with an RFP, potential bidders will be selected from respondents to this Expression of Interest. Note that WESI may elect to award one or more contracts for this scope of work.

Submissions

All inquiries should be submitted via email to the following:

Braydon Berggren
Project Engineer
